GREECE MASSING HER ARMY ALONG BULGARIAN LINE

Bul News From Rome Says Bulgarians Are Anxious to Avoid Conflict.

London, April 4.—The moving of Greek troops out of their positions along the Bulgarian line, which has been reported in Rome, is being interpreted as a move to avoid conflict.

The British press sees in this episode the possibility of developments which may mean a flare-up in the mounting Balkan situation.

Advices reaching London by way of Rome assert that Bulgaria has agreed to give full satisfaction to Serbia. If this is true, the only reason for the episode will be to draw from Bulgaria a definite statement as to the policy she purposes to pursue. All the Balkan nations, as well as Italy, are waiting the outcome with interest.

Meanwhile Greece is massing troops along the Bulgarian frontier and Hungarian reserves, according to advices from Saloniki, have received orders to join the colors. In the country allied against Germany, Austria and Turkey these recent developments are blamed upon German intrigue.

EITEL TO INTERNE, WASHINGTON REPORT

High Officials Believe Last Chance of the Raider to Escape Is Gone.

WASHINGTON, April 5.—High Government officials were almost unanimous today in the belief that the German raider Prinz Eitel Friedrich will intern at Newport News within the next twenty-four hours. It was generally admitted that the Eitel's last chance for a dash to sea is gone.

Instructions were believed to have gone to Norfolk and Baltimore collectors not to permit allied ships to clear until further notice, but this was deemed a mere formality, as the Eitel was not expected to try for the sea after remaining at port during the Friday and Saturday night storm.

There was also a strong indication that the Eitel's internment will be announced Wednesday at 3 A. M., as at that hour it will have been in American waters four weeks.

GERMANS GIVE THE LIE TO STORY OF LAUGHING AT SUBMARINE VICTIMS.

BERLIN, April 5.—(By wireless to Sayville, L. I.)—The following statement was given out officially today: "Provocative reports in English and neutral newspapers that the crew of the German submarine which sank the British steamer Falaba laughed at the death struggles of the passengers and refused to assist them, although having opportunity to do so, are shameless lies."

"England's decision to attack submarines by merchant ships and to give prizes for successful attacks forces submarines to act without loss of time. Unfortunately it frequently is impossible for submarine crews to spare human lives. England's attitude changed because the sinking of the Falaba proves that passenger traffic is no longer safe and because submarine warfare has affected her economic life more seriously."

GERMANS KILLED RESCUERS OF OWN MEN, SAY BRITISH

"Eyewitness" Declares Prussians Mistreated the Bavarian and Saxon Soldiers.

LONDON, April 5.—(Associated Press.)—"Prussians, Bavarians and Saxons took part in the fighting at Neve Chapelle, but their mutual cooperation does not seem at all points to have been very hearty," says the eyewitness attached to British Headquarters in France in a communication dated April 2.

"The prisoners of the two last mentioned nationalities expressed great indignation at the manner in which they were flung into action during the counter-attacks from Bois du Bois. Orders were given them, as they have said, to reinforce the firing line but on advancing from the wood they found no firing line but discovered instead that they were alone and unsupported. Many surrendered in consequence. On the whole they are under the impression that they were grossly mismanaged by the Prussian officers."

"The treatment of their own wounded by the Germans was callous to a degree. Although numbers were lying in front of the trenches in many places, no effort was made to pick them up. At last our men were compelled by pity, at considerable risk to themselves, to endeavor to reach these wounded, but the Germans continued to shoot, and they hit some of our men while engaged on this errand of mercy, although their intentions were obvious. There is reason to believe that many of the wounded were Bavarians and Saxons, while the men in the trenches were Prussians."

NO PASSPORTS TO TOUR EUROPE FOR PLEASURE

Americans Must Convince Government They Are Going Abroad on Business.

WASHINGTON, April 5.—The Government has decided to issue passports to Americans wishing to travel in Europe in future only if they can show they have business. To those seeking to go abroad for pleasure they will be denied.

PEREMYSL'S DEFENDERS TORE UP THEIR FLAGS TO PREVENT CAPTURE.

PETROGRAD, April 5.—A remarkable feature of the surrender of the Galician fortress of Peremyshl was the fact that not an Austrian flag was captured, says the Rusky Slovo. The secret of their disappearance was discovered through the confession of Slav war prisoners who arrived at Kiev.

They said that the night before the surrender all the flags were torn into strips. These strips were numbered and distributed among individuals, who hid them in linings of their coats and caps. They were required to take an oath to restore them upon their release from captivity, so that one flag might be reconstructed, thus giving the remnants the right to a further corporate existence.

A search of the prisoners revealed many such fragments of flags. In the hands of a bag belonging to Gen. Thomasschki a flag was found intact. Among the prisoners who have arrived at Kiev are one hundred members of regimental bands, who complained that they were compelled to play each night at officers' balls in spite of their starving condition. They say that when a player fainted from hunger he was revived with vodka and compelled to continue.

ZEPELIN CRITICIZES DIRIGIBLE CAPTAINS FOR FAILURE IN RAIDS.

ROMANSCHORN, Switzerland, April 5.—Count Zeppelin is not satisfied with the manner in which his airships are being handled. He recently called together his engineers and the captains of the dirigibles now at the Zeppelin works at Friedrichshafen and criticized them on several points. The Count said that the full power of Zeppelins had not been employed and that longer raids than any made heretofore were possible. He also said that there was too much of a disposition to await favorable weather conditions instead of responding without delay to military requirements.

He believed that an attack upon London and the lower Thames had been delayed unnecessarily. The Count also is understood to have criticized his captains for retreating from hostile airmen.

AUSTRIAN ARMY IS DRIVEN BACK IN MOUNTAIN PASSES

Vienna Admits Reverses Due to the Arrival of the Victors of Peremyshl.

LONDON, April 5.—An overwhelming Russian army has steam-rollered its way through the Beskid Pass into the Hungarian plains. News of the victory, the result of two weeks of the most desperate fighting, comes from Vienna, which admits that "the presence of large Russian reinforcements arriving from Przemysl compelled the Austrian army to withdraw from the Beskid region in the Carpathians."

The announcement, in view of Russian victories at Lufkow Pass, may mean far more than the capture of Beskid. The "Beskid region" mentioned really covers an area of about 300 miles, and the Austrians, because of the tremendous pressure from the north and from the small contingents that have previously crossed into Hungary, may have abandoned the entire region.

Official reports from Petrograd tell of a great victory beyond the Beskid Pass in Hungary and on the road to the railroad centre that controls the lines to Budapest.

DUTY TO MAKE PEACE, IS INDEPENDENT LABOR PARTY CRY IN BRITAIN

Council Says Party Has Fought Principles Which Led to the War.

NORWICH, England, April 5.—(Associated Press.)—The delegates of the Independent Labor Party, now holding their annual meeting in Norwich, have received a report from the National Administrative Council of the party setting forth that the party has accepted a set of resolutions declaring among other things, that it was the duty of the labor movement to procure peace at the earliest possible moment.

The text of these resolutions is as follows: "That the conflict between the nations of Europe with which this country is involved is a result of the pursuit by foreign offices of diplomatic policies with the idea of maintaining the balance of power; that our national policy of understanding with France and Russia only is bound to increase the power of Russia both in Europe and in Asia and to endanger our good relations with Germany; that the Foreign Secretary Grey is proved by the facts he gave in the House of Commons committee to have given definite assurance of support to France in the event of any war in which she was seriously involved before the House of Commons had any chance to consider the matter; that the labor movement reiterates the fact that it had opposed the policies which produced this war, and that its

duty now is to secure peace at the earliest possible moment on such conditions as provide the best opportunity for the re-establishment of cordial relations between the countries of Europe."

BELGIANS REPULSED, FRENCH HELD BACK, REPORT FROM BERLIN.

BERLIN, April 5.—(By wireless to Sayville, L. I.)—The War Office today gave out the following report: "The Belgians attempted to concentrate reinforcements in the direction of Ixel Grachten, which, with the exception of some houses on the northern side, has been in our hands since April 3. The Belgian troops were repulsed by our artillery fire."

"French attempts to advance in the Argonne Forest also were prevented by artillery fire. A strong attack by the enemy against our position on the heights west of Bourcelles, south of Varennes, broke down a short distance in front of the German fortifications. French infantry charges west of Pont-a-Mousson were successful, while the Germans gained some ground in the forest of La Pretre by blowing up several mines."

"A Russian attack on Marland (northwest of Ruzhiki) was repulsed with heavy losses for the enemy. Otherwise there were no events of importance on the whole eastern front."

George Washington—"Father of His Country"

EVERY AMERICAN knows that without "Immortal Washington" our National Independence would have been impossible. Few, however, know that the greatest battle of Washington's life was fought to secure for his countrymen the Constitution of the United States. Almost immediately after the Revolution it seemed that all the great sacrifice of blood and treasure had been in vain. The original thirteen states refused to work in harmony, either in spirit or in law. The new Republic was tottering to its foundations. At this critical period in American history the most brilliant men of each state met in convention and unanimously elected Washington as President—undoubtedly the most momentous gathering of the kind the world has ever known. Here he displayed as great ability as law-maker as he had as a warrior. For months the Fathers of the Republic labored, and finally adopted our present National Law, which forever guarantees Religious, Commercial and Personal Liberty. This was in 1787. Seventy years later Anheuser-Busch established their great institution upon the tenets of the Federal law which Washington did so much to create. Like all of the great men of his time, he was a moderate user of good old barley brew. For three generations Anheuser-Busch have brewed honest malt and hop beers. To-day 7500 people are daily employed to keep pace with the ever-increasing public demand. The great popularity of their famous brand—BUDWEISER—due to quality purity, mildness and exquisite flavor, has made its sales exceed those of any other beer by millions of bottles.
